The IEEE International Conference on Cloud and Big Data Computing is a premier forum for researchers, practitioners and developers who are interested in cloud computing and big data to explore new ideas, techniques and tools, as well as to exchange experience. Besides the latest research achievements, the conference covers also innovative commercial data management systems, innovative commercial applications of cloud computing and big data technology, and experience in applying recent research advances to real-world problems.

IEEE CBDCom 2025 will be the 11th edition of the conference after the success of CBDCom 2015 in Beijing, CBDCom 2016 in Toulouse, CBDCom 2017 in San Francisco, CBDCom 2018 in Guangzhou, CBDCom 2019 in Fukuoka, CBDCom 2020 in Calgary, CBDCom 2021 held virtually, CBDCom 2022 in Calabria, CBDCom 2023 in Abu Dhabi, and CBDCom 2024 in Boracay Island. It will continuously offer a platform for researchers to exchange novel studies, discuss important issues and explore key challenges in innovative cloud and big data for smarter world. IEEE CBDCom 2025 will be held on October 21-24, in Hakodate, Japan, co-located with IEEE CyberSciTech 2025, IEEE PICom 2025, and IEEE DASC 2025. It aims to bring together computer scientists, engineers and researchers from academia and industry to discuss and exchange experimental and theoretical results, work-in-progress, novel designs, and future trends in cloud and big data innovations.
