# **Organizing Committee**

#### **Honorary Chairs**

Stephen S. Yau, Arizona State University, USA Kouichi Sakurai, Kyushu University, Japan

## **General Chairs**

Bernady O. Apduhan, Kyushu Sangyo University, Japan Qing Li, Hong Kong Polytechnic University, Hong Kong Qun Jin, Waseda University, Japan

#### **General Executive Chairs**

Xiaohong Jiang, Future University Hakodate, Japan Xiaokang Zhou, Kansai University, Japan Moayad Aloqaily, Mohamed Bin Zayed University, UAE Kanghyun Jo, University of Ulsan, Korea

#### **Program Chairs**

Celimuge Wu, The Univ. of Electro-Comm., Japan Gautam Srivastava, Brandon University, Canada Ao Guo, Nagoya University, Japan

#### **Program Co-Chairs**

Yutaka Watanobe, The University of Aizu, Japan Yan Huang, Kennesaw State University, USA Xiaoyan Wang, Ibaraki University, Japan Weimin Li, Shanghai University, China S.Leili Mirtaheri, University of Calabria, Italy Xiaokun Zhang, Athabasca University, Canada Lai Tu. Huazhong University of Sci. & Tech., China

#### Workshop & Special Session Chairs

Pan Wang, Univ. of Posts & Telecomm., China Yegang Du, Tohoku University, Japan

# **Special Issue Chair**

Ke Yan, Hunan University, China

#### **International Liaison & Publicity Chairs** Xiaohua Feng, University of Bedfordshire, UK

Hongxin Yan, Athabasca University, Canada Hong Chen, Daiichi Institute of Technology, Japan Safa Otoum, Zayed University, UAE Ruichen Cong, Waseda University, Japan Kai Cheng, Kyushu Sangyo University, Japan Zhuotao Lian, Hiroshima University, Japan

#### **Publication Chair**

Ao Guo, Nagoya University, Japan

#### **Steering Committee**

Jianhua Ma (Chair), Hosei University, Japan Hui-Huang Hsu, Tamkang University, Taiwan Qun Jin, Waseda University, Japan Laurence T. Yang, St. Francis Xavier University, Canada Jun Wang, University of Central Florida, USA

Stephen S. Yau, Arizona State University, USA Mazin Yousif, T-Systems International, USA

Albert Zomaya, The University of Sydney, Australia Kevin I-Kai Wang, The Univ. of Auckland, New Zealand Bernady O. Apduhan, Kyushu Sangyo Univ., Japan

Oscar Lin, Athabasca University, Canada Giancarlo Fortino, University of Calabria, Italy

Moayad Aloqaily, MBZUAI, UAE Frank Hsu, Fordham University, USA Jinhua She, Tokyo University of Technology, Japan

## **Advisory Committee**

Baoming Bai, Xidian University, China Julien Bourgeois, UBFC/FEMTO-ST INST/CNRS, France Raymond Choo, The Univ. of Texas at San Antonio, USA Zhong Chen, Peking University, China Tadashi Dohi, Hiroshima University, Japan Song Guo, Hong Kong Polytechnic University, Hong Kong Seungcheon Kim, Hansung University, Korea Keiichi Iwamura, The Tokyo University of Science, Japan Jianwei Liu, Beihang University, China Zhen Liu, Nagasaki Institute of Applied Science, Japan Huansheng Ning, Univ. of Sci. and Tech. Beijing, China Yi Pan, Georgia State University, USA Kouichi Sakurai, Kyushu University, Japan Zhou Su, Xi'an Jiaotong University, China Zhixin Sun, Minjiang University, China Nicolas Tsapatsoulis, Cyprus Univ. of Tech, Cyprus

Feng Xia, RMIT University, Australia Jianwei Yin, Zhejiang University, China Bofeng Zhang, Shanghai Polytechnic University, China Yanchun Zhang, Victoria University, Australia Qiangfu Zhao, The University of Aizu, Japan Qinggou Zhou, Lanzhou University, China John Paul C. Vergara, AdMU, Philippines

#### **IMPORTANT DATES**

Workshop/SS Proposal Due: Jun. 06. 2025 Regular Paper Submission Due: Jun. 20, 2025 WiP/Poster/Wksp/SS Paper Due: Jun. 27, 2025

Aug. 11, 2025 **Author Notification:** Camera-ready Submission Due: Sep. 12, 2025

CyberSciTech 2025 The 10th IEEE Cyber Science and Technology Congress October 21-24, Hakodate, Japan http://cyber-science.org/2025/cyberscitech/

# Transforming the Future by Disruptive Cyber Technologies

Cyberspace, the seamless integration of physical, social, and mental spaces, is an integral part of our society, ranging from learning and entertainment to business and cultural activities, and so on. There are, however, a number of pressing challenges such as safety and trust associated with the cyberspace. For example, how do we strike a balance between the need for strong cybersecurity and preserving the privacy of ordinary citizens?

To address these challenges, there is a need to establish new science and research portfolios that incorporate cyber-physical, cyber-social, cyber-intelligent, and cyber-life technologies in a cohesive and efficient manner. This is the aim of the IEEE Cyber Science and Technology Congress (CyberSciTech). IEEE CyberSciTech has been successfully held in Auckland, New Zealand, 2016, in Orlando, USA, 2017, in Athens, Greece, 2018, in Fukuoka, Japan, 2019, in Calgary, Canada, 2020 and 2021 (online due to COVID-19), in Calabria, Italy, 2022, in Abu Dhabi, UAE, 2023, and in Boracay Island, Philippines, 2024.

In 2025, we will continue to offer IEEE CyberSciTech with the aim of providing a common platform for scientists, researchers, and engineers to share their latest ideas and advances in the broad scope of cyberrelated science, technology, and application topics. In addition, this is also a platform to allow relevant stakeholders to get together, discuss and identify ongoing and emerging challenges, in order to understand and shape new cyber-enabled worlds.

# **IEEE CyberSciTech 2025 Tracks and Topics**

# Track 1: Cyberspace Theory & Technology

- Cyberspace Property, Structure & Models
- ♦ Cyber Pattern, Evolution, Ecology & Science
- ♦ SDN/SDS, 5G/6G, Vehicle & Novel Network
- Cloud, Fog, Edge & Green Computing
- Big Data Analytics, Technology & Service ♦ Infrastructures for Smart City/Country

#### Track 3: Cyber Physical Computing & Systems

- Cyber Physical Dynamics & Disaster Relief
- Cyber Manufacturing & Control
- → Embedded Systems & Software
- **Autonomous Robots & Vehicles**
- ♦ IoT, Digital Twin & Smart Systems

### Track 5: Cyber Intelligence & Cognitive Science

- Cyber/Digital Brain & Artificial Intelligence
- → Hybrid & Hyper-connected Intelligence → Affective/Mind Cognition & Computing
- ♦ Brain/Mind Machine Interface
- Al Agents & Embodied Intelligence
- Intelligent Object, Environment & Service

# Track 2: Cyber Security, Privacy & Trust

- ♦ Cyber Crime, Fraud, Abuse & Forensics
- Cyber Privacy, Trust & Insurance
- Blockchain, DLT Techniques & Applications
- Post-quantum Cryptography
- **Track 4: Cyber Social Computing & Networks**
- ♦ Social Networking & Computing
- ♦ Computational Social Science
- ♦ Crowd Sourcing, Sensing & Computing
- Cyber Social Right, Policy, Laws & Ethics

# Track 6: Cyber Life & Wellbeing

- Cyber Life & Human Centric Computing

- → Human/Animal Behavior Recognition
- ♦ Personal Big Data & Personality Computing
- ♦ Augmented/Mixed Reality & Metaverse

# CyberSciTech 2025 Submissions and Publications

IEEE CyberSciTech 2025 calls for original papers, together with workshop and special session (SS) proposals, which focus on specific subjects related to cyber science and technology. Submission link: https://edas.info/N33760

All accepted regular, work-in-progress (WiP), and poster papers as well as workshop and SS papers will be published by IEEE in the Conference Proceedings (IEEE-DL and EI indexed). Selected high quality papers will be recommended to prestige journal special issues.

# **Three Co-located IEEE International Conferences**

- The 23rd IEEE Int'l Conf. on Dependable, Autonomic and Secure Comput (DASC 2025)
- The 23rd IEEE Int'l Conf. on Pervasive Intelligence and Computing (PICom 2025)
- The 11th IEEE Int'l Conf. on Cloud and Big Data Computing (CBDCom 2025)
