Organizing Committee

Honorary Chairs
Stephen S. Yau, Arizona State University, USA
Kouichi Sakurai, Kyushu University, Japan

General Chairs
Bernady O. Apduhan, Kyushu Sangyo University, Japan
Qing Li, Hong Kong Polytechnic University, Hong Kong
Qun Jin, Waseda University, Japan

General Executive Chairs
Xiaohong Jiang, Future University Hakodate, Japan
Xiaokang Zhou, Kansai University, Japan
Moayad Aloqaily, Mohamed Bin Zayed University, UAE
Kanghyun Jo, University of Ulsan, Korea

Program Chairs
Celimuge Wu, The Univ. of Electro-Comm., Japan
Gautam Srivastava, Brandon University, Canada
Ao Guo, Nagoya University, Japan

Program Co-Chairs
Yutaka Watanobe, The University of Aizu, Japan
Yan Huang, Kennesaw State University, USA
Xiaoyan Wang, Ibaraki University, Japan
Weimin Li, Shanghai University, China
S.Leili Mirtaheri, University of Calabria, Italy
Xiaokun Zhang, Athabasca University, Canada
Lai Tu, Huazhong University of Sci. & Tech., China
Lingling Fang, Liaoning Normal University, China

Workshop & Special Session Chairs
Pan Wang, Univ. of Posts & Telecomm., China
Yegang Du, Tohoku University, Japan

Special Issue Chair
Ke Yan, Hunan University, China

International Liaison & Publicity Chairs
Xiaohua Feng, University of Bedfordshire, UK
Hongxin Yan, Athabasca University, Canada
Hong Chen, Daiichi Institute of Technology, Japan
Safa Otoum, Zayed University, UAE
Ruichen Cong, Waseda University, Japan
Kai Cheng, Kyushu Sangyo University, Japan
Zhuotao Lian, Hiroshima University, Japan
Chen Yang, Chinese Academy of Sciences, China

Publication Chair
Ao Guo, Nagoya University, Japan

Steering Committee
Jianhua Ma (Chair), Hosei University, Japan
Hui-Huang Hsu, Tamkang University, Taiwan
Qun Jin, Waseda University, Japan
Laurence T. Yang, St. Francis Xavier University, Canada
Jun Wang, University of Central Florida, USA
Stephen S. Yau, Arizona State University, USA
Mazin Yousif, T-Systems International, USA
Albert Zomaya, The University of Sydney, Australia
Kevin I-Kai Wang, The Univ. of Auckland, New Zealand
Bernady O. Apduhan, Kyushu Sangyo Univ., Japan
Oscar Lin, Athabasca University, Canada
Giancarlo Fortino, University of Calabria, Italy
Moayad Aloqaily, MBZUAI, UAE
Frank Hsu, Fordham University, USA
Jinhua She, Tokyo University of Technology, Japan

Advisory Committee
Baoming Bai, Xidian University, China
Julien Bourgeois, UBFC/FEMTO-ST INST/CNRS, France
Raymond Choo, The Univ. of Texas at San Antonio, USA
Zhong Chen, Peking University, China
Tadashi Dohi, Hiroshima University, Japan
Song Guo, Hong Kong Polytechnic University, Hong Kong
Seungcheon Kim, Hansung University, Korea
Keiichi Iwamura, The Tokyo University of Science, Japan
Jianwei Liu, Beihang University, China
Zhen Liu, Nagasaki Institute of Applied Science, Japan
Huansheng Ning, Univ. of Sci. and Tech. Beijing, China
Yi Pan, Georgia State University, USA
Kouichi Sakurai, Kyushu University, Japan
Zhou Su, Xi'an Jiaotong University, China
Zhixin Sun, Minjiang University, China
Nicolas Tsapatsoulis, Cyprus Univ. of Tech, Cyprus
Feng Xia, RMIT University, Australia
Jianwei Yin, Zhejiang University, China
Bofeng Zhang, Shanghai Polytechnic University, China
Yanchun Zhang, Victoria University, Australia
Qiangfu Zhao, The University of Aizu, Japan
Qinggou Zhou, Lanzhou University, China
John Paul C. Vergara, AdMU, Philippines
WeiLu, Beijing Jiaotong University, China

CyberSciTech 2025
The 10th IEEE Cyber Science and Technology Congress
October 21-24, Hakodate, Japan
http://cyber-science.org/2025/cyberscitech/

Transforming the Future by Disruptive Cyber Technologies

Cyberspace, the seamless integration of physical, social, and mental spaces, is an integral part of our society, ranging from learning and entertainment to business and cultural activities, and so on. There are, however, a number of pressing challenges such as safety and trust associated with the cyberspace. For example, how do we strike a balance between the need for strong cybersecurity and preserving the privacy of ordinary citizens?

To address these challenges, there is a need to establish new science and research portfolios that incorporate cyber-physical, cyber-social, cyber-intelligent, and cyber-life technologies in a cohesive and efficient manner. This is the aim of the IEEE Cyber Science and Technology Congress (CyberSciTech). IEEE CyberSciTech has been successfully held in Auckland, New Zealand, 2016, in Orlando, USA, 2017, in Athens, Greece, 2018, in Fukuoka, Japan, 2019, in Calgary, Canada, 2020 and 2021 (online due to COVID-19), in Calabria, Italy, 2022, in Abu Dhabi, UAE, 2023, and in Boracay Island, Philippines, 2024.

In 2025, we will continue to offer IEEE CyberSciTech with the aim of providing a common platform for scientists, researchers, and engineers to share their latest ideas and advances in the broad scope of cyber-related science, technology, and application topics. In addition, this is also a platform to allow relevant stakeholders to get together, discuss and identify ongoing and emerging challenges, in order to understand and shape new cyber-enabled worlds.

IEEE CyberSciTech 2025 Tracks and Topics

Track 1: Cyberspace Theory & Technology
- Cyberspace Property, Structure & Models
- Cyber Pattern, Evolution, Ecology & Science
- SDN/SDS, 5G/6G, Vehicle & Novel Network
- Cloud, Fog, Edge & Green Computing
- Big Data Analytics, Technology & Service
- Infrastructures for Smart City/Country

Track 2: Cyber Security, Privacy & Trust
- Cyber Security, Safety & Resilience
- Cyber Crime, Fraud, Abuse & Forensics
- Cyber Attack, Terrorism, Warfare & Defense
- Cyber Privacy, Trust & Insurance
- Blockchain, DLT Techniques & Applications
- Post-quantum Cryptography

Track 3: Cyber Physical Computing & Systems
- Cyber Physical Systems & Interfaces
- Cyber Physical Dynamics & Disaster Relief
- Cyber Manufacturing & Control
- Embedded Systems & Software
- Autonomous Robots & Vehicles
- IoT, Digital Twin & Smart Systems

Track 4: Cyber Social Computing & Networks
- Social Networking & Computing
- Computational Social Science
- Crowd Sourcing, Sensing & Computing
- Cyber Culture, Relation, Creation & Art
- Cyber Social Right, Policy, Laws & Ethics
- Cyber Learning, Economics & Politics

Track 5: Cyber Intelligence & Cognitive Science
- Cyber/Digital Brain & Artificial Intelligence
- Hybrid & Hyper-connected Intelligence
- Affective/Mind Cognition & Computing
- Brain/Mind Machine Interface
- AI Agents & Embodied Intelligence
- Intelligent Object, Environment & Service

Track 6: Cyber Life & Wellbeing
- Cyber Life & Human Centric Computing
- Cyber Medicine, Healthcare & Psychology
- Cyborg/Wearable/Implantable Technology
- Human/Animal Behavior Recognition
- Personal Big Data & Personality Computing
- Augmented/Mixed Reality & Metaverse

CyberSciTech 2025 Submissions and Publications

IEEE CyberSciTech 2025 calls for original papers, together with workshop and special session (SS) proposals, which focus on specific subjects related to cyber science and technology. Submission link: https://edas.info/N33760

All accepted regular, work-in-progress (WiP), and poster papers as well as workshop and SS papers will be published by IEEE in the Conference Proceedings (IEEE-DL and EI indexed). Selected high quality papers will be recommended to prestige journal special issues.

Three Co-located IEEE International Conferences

- The 23rd IEEE Int'l Conf. on Dependable, Autonomic and Secure Comput (**DASC 2025**)
- The 23rd IEEE Int'l Conf. on Pervasive Intelligence and Computing (**PICom 2025**)
- The 11th IEEE Int'l Conf. on Cloud and Big Data Computing (**CBDCom 2025**)

Sponsored by IEEE · IEEE Computer Society   **Hosted by** FUTURE UNIVERSITY HAKODATE

Supported by TCSC IEEE · IEEE SMC TC on CyberMatics · IEEE CIS Smart World TC · IEEE HI-TC Hyper Intelligence Technical Committee
